General Comment

This "taskforce" is a thinly-veiled attempt by far-right political elements in our society to allow the "finance" sector to control the "public" sector.

In fact, we should demand that the "finance" sector SERVE the "public" sector, rather than encourage the "finance" sector to PLUNDER the "public" sector.

The federal and state governments should control ALL ACTIONS perpetrated by the "finance" sector, to ensure they SERVE the "public" sector.

By the time our disheveled country opens its eyes to the PLUNDERING by the "finance" sector, China will be so far ahead of us economically...that we will never be able to see ourselves as national "equals" to the "evil" Socialist-Chinese.

The next American generation will have to reverse the damage already done by the trumppers.....including the CFPB efforts to subjugate the "public" to the "free-market" plundering of the financial world.
