Friends,

To recap what we just spoke about:

- Use the attached “RFI Comment Review Instructions” to fill out our respective “RFI Comment Summary” with public comments, found below on the Z drive.
- Follow the structure given in the attached example “HMDA Data Points Comment Summary.”
- Prioritize longer, substantive comments according to the buckets outlined in the “RFI Comment Review Assignments” file.
- Summarize your public research in a separate Comment Summary file. These may or may not be combined later, TBD.
  - Check the coalition megacomment (92) to see if any of your consumer groups submitted something grabbable there.
  - Check the RMR Call for Evidence report to see if any of it has been summarized before, feel free to grab that language.
- Per Jean, aim to have a high-level summary that could stand alone with minimal context.
  - Ex. “Bank A advocates for complete abolition of GLBA provision X pertaining to Y and Z, and instead wants it replaced with these five policies: A B C D E.”
- Goal is for completion by COB Friday so we have time to summarize for the presentation next week.
  - Dave or I will check in Thursday AM to see where we’re at and redistribute work if necessary (we’ve all got somewhat unpredictable obligations).
- This is a higher priority than reading/reviewing the chapters, but we want to be able to do that too.

Outstanding questions:

- What does the presentation for next week look like? (Nat?)

Later, when we aren’t in a time crunch, we’ll take some time to match up the comments with the links to the permanent regulations.gov listings.

Let me know if anything needs clarification.

Best,
