General Comment

1. The CFPB Taskforce, if not actually biased and conflicted, certainly appears to have serious and overwhelming conflicts and inherent unavoidable bias against consumers, particularly low income consumers of color.
2. Right now, given that 40 million plus Americans are unemployed, dealing with a pandemic and facing anarchy in the form of foreclosure, repossession, wage and bank garnishment, utility shutoffs, debt and court fee related imprisonment and eviction, the CFPB Taskforce should rethink its mission and totally white makeup, dissolve itself and start over.
