

Taskforce on Federal Consumer Financial Law

Listening Session

I. Summary:

The Taskforce on Federal Consumer Financial Law (Taskforce) will examine the existing legal and regulatory environment facing consumers and financial services providers and report to Director Kraninger its recommendations for ways to improve and strengthen consumer financial laws and regulations. The Taskforce will produce new research and legal analysis of consumer financial laws in the United States, focusing specifically on harmonizing, modernizing, and updating the enumerated consumer credit laws—and their implementing regulations—and identifying gaps in knowledge that should be addressed through research, ways to improve consumer understanding of markets and products, and potential conflicts or inconsistencies in existing regulations and guidance.

During today's discussion, the Taskforce is interested hearing the ideas and perspectives from key Bureau stakeholders on innovation, inclusion, competition, and modernizing the financial regulatory framework.

II. Discussion Questions:

Below are a few questions to help facilitate the discussion but should not limit the discussion to these questions.

- **On Innovation:** What trends in financial technology or FinTech are you seeing today. How could these trends impact the marketplace ten to fifteen years from now? What might be the impact for consumers as the market evolves?
- **On Inclusion:** Do you believe there are regulatory issues that should be addressed at the federal level to promote greater access to consumer financial products or services to underserved individuals and/or communities?
- **On Competition:** Do you believe that promoting competition, innovation, and efficient markets can enhance consumer choice in the marketplace? Does the Bureau have a role in promoting competition while at the same time furthering its mission of consumer protection? Are there examples of state, Federal, or foreign regulators that have successfully balanced these goals?
- **On Regulatory Modernization:** Do you believe there are gaps or conflicts in financial regulations; redundancies in financial regulations; or areas of financial regulation where additional clarity is needed. If so, what are they? And where are there opportunities for improved coordination between federal and state regulators, specifically from the perspective of regulated entities and consumers?
- **On Research:** Are there new areas of research that the Bureau should consider undertaking or expanding on in the consumer financial marketplace?

FOR OFFICIAL USE ONLY

Pre-decisional
