Hi all –

Attached are two things mentioned during yesterday's listening session: (a) the Administration's guidance on using artificial intelligence, and (b) the Bureau's principles on data aggregation. Specifically:

Artificial Intelligence

- On February 11, 2019, the President issued Executive Order 13859, which requires OMB to issue guidance to agencies regarding the regulation or non-regulation of artificial intelligence.
- OMB then issued the attached draft memorandum regarding regulation of artificial intelligence.
- OMB is seeking public comment on the draft memo. The comment period ends March 13, 2020.

Data Aggregation

- On October 18, 2017, the Bureau issued the attached Principles of Data Aggregation, as well as a summary of stakeholder views that helped inform the principles.
